

Adaptive Sampling for Efficient Acoustic Noise Monitoring: an Incremental Learning Approach

Faiga Alawad (Norwegian University of Science and Technology, Norway)

Energy Analysts Need a Standard that Interprets the Metro Area Global Information Infrastructure

Etienne-Victor Depasquale and Saviour Zammit (University of Malta, Malta); Franco R. Davoli (University of Genoa & CNIT, Italy); Raffaele Bolla (University of Genoa, Italy)

Mobility Management via Software Defined Networks (SDN) in Vehicular Ad Hoc Networks (VANETs)

Farhan Aadil (COMSATS University Islamabad Attock Campus & COMSATS Institute of Information Technology, Pakistan); Muazzam Maqsood (COMSATS Institute of Information Technology, Pakistan)

A Blockchain-Based Cloud Edge Fusion Computing Platform for the Smart Grid

Sijie Su, Ying Gao, Yandan Chen and Qiaofeng Pan (South China University of Technology, China); Xiping Hu (Sun Yat-sen University, China)

Exploration of Adaptive Energy Optimization for 5G Roadside Unit

Rui Zhou (University of South China & Chinese Academy of Sciences, China); Hongyu He (University of South China, China); Hongfeng Shu and Qi Liu (Shenzhen SmartCity Technology Development Group, China); Lei Peng (Chinese Academy of Sciences, China)

Energy-Efficient Monitoring of Potential Side Effects from COVID-19 Vaccines

Weipeng Deng, Edith C.-H. Ngai (The University of Hong Kong, Hong Kong); Vera van Zoest (Uppsala University, Sweden)

Influence of Communication Technologies in Smart Grid Power Congestion Management

Adrien Gougeon (University Rennes, Inria, India); François Lemercier (CNRS, IRISA, France); Anne Blavette (CNRS, SATIE, France); Anne-Cécile Orgerie (CNRS & IRISA, France)

Making Smart Contract Classification Easier and More Effective

Zhirong Zhu, Jianzhong Su, Zigui Jiang, Mingxi Ye and Zibin Zheng (Sun Yat-sen University, China)

Energy Consumption Models for UAV Communications: A Brief Tutorial

Hua Yan, Shuang-Hua Yang, Yulong Ding (SUSTech, China); Yunfei Chen (University of Warwick, UK)

Adaptive Federated Learning via Mean Field Approach

Kaifei Tu, Shensheng Zheng, Xuehe Wang and Xiping Hu (Sun Yat-sen University, China)

On the Benefits of Transfer Learning and Reinforcement Learning for Electric Short-term Load Forecasting

Yuwei Fu, Di Wu and Benoit Boulet (McGill University, Canada)
